Senior Frontend Engineer with 4.5+ years of experience specializing in building high-performance, modular web applications for the e-commerce and AI sectors. Expert in React.js, Next.js, TypeScript, and JavaScript (ES6+). Proven track record of developing scalable UI architectures using Tailwind CSS and SCSS, optimizing Core Web Vitals, and configuring custom frontend build pipelines. Passionate about delivering accessible, cross-browser-consistent user experiences and leveraging agile methodologies to accelerate the feature development lifecycle.

WORK EXPERIENCE

Senior Full Stack Developer

Valopt Pvt Ltd (France - Remote)

France - Remote

06/2024 - Present

Architected a scalable full-stack environment using **Next.js 14 (App Router) and Node.js**, implementing **SSR** (Server-Side Rendering) and custom middleware to ensure sub-second response times and optimized **Core Web Vitals** (LCP, CLS).

Built and maintained a modular, accessible UI component library using **React, Tailwind CSS, and SCSS**, significantly reducing code redundancy and ensuring cross-browser consistency.

Spearheaded the development of the **Valopt AI Chatbot Widget**, delivering real-time NLP responses via optimized API integrations and supporting **1,000+** daily customer interactions.

Transformed complex design mockups into **pixel-perfect**, responsive interfaces, configuring custom **Tailwind** settings to match the core branding and design system.

Collaborated in **Agile** ceremonies with backend developers and QA to track and fix UI regressions proactively.

Web Developer

eVenturers Solutions Pvt. Ltd.

Puducherry-9

09/2021 - 04/2024

Led frontend maintenance and feature enhancements for major French e-commerce platforms, optimizing the checkout flow for **10,000+** monthly active users through targeted code splitting and image optimization.

Engineered a custom **Stock Tracking & Analytics Tool** using **JavaScript (ES6+)** and modern array methods (map, filter, reduce) to provide real-time inventory visibility and business insights.

Integrated advanced API communication systems for **automated WhatsApp and SMS notifications**, improving customer retention rates.

Designed and implemented a complex Referral & Loyalty system from scratch, utilizing PHP and optimized frontend logic to drive user growth through reward-based mechanics.

EDUCATION

Bachelors in Computer Science and Engineering

Pondicherry Engineering College

CGPA - 5.4

06/2016 - 05/2019

Pondicherry

SKILLS

Technical Expertise

Core Frontend: React.js, Next.js 14+ (App Router, SSR, SSG, Middleware), JavaScript (ES6+), TypeScript, Redux Toolkit, HTML5.

UI & Styling: Tailwind CSS, SCSS/SASS, Responsive (Mobile-First) Design, Framer Motion, Semantic HTML, ARIA Accessibility.

Real-time & AI: WebSockets, Server-Sent Events (SSE), LLM API Integration.

API & Data Integration: GraphQL, GraphQL Playground, Postman, TanStack Query (React Query), RESTful APIs, Strapi.

Performance & Tools: Node.js, npm, Webpack, BrowserStack, Jest, Git/Bitbucket workflows, Chrome DevTools.

PROJECTS

Valopt.ai Website

- Built a responsive, SEO-optimized UI using Next.js and Tailwind CSS, integrating REST APIs with a Strapi headless CMS for dynamic content delivery and static asset management.

Valopt AI Agent Chatbot

- Developed AI-powered chatbot for automated customer interactions using LLM.
- Executed real-time messaging workflows and business logic integrations.

AI Agent Chatbot Dashboard

- Built a comprehensive admin dashboard with Next.js and Strapi for real-time chatbot monitoring, utilizing TypeScript for strict type safety and modular programming.

ValoptMailer Automation System

- Developed a secure email automation service utilizing Next.js, Node.js fundamentals, and Nodemailer with OAuth2, demonstrating strong universal JavaScript application architecture.

Ecigplanet (E-commerce Platform)

- Tech Stack: PrestaShop, PHP, MySQL
- Managed end-to-end development and customization of the e-commerce system.
- Developed custom backend tools and admin dashboard features using PHP.
- Built frontend UI using HTML, CSS, Bootstrap for improved usability.
